Namasco Expanding

DUBUQUE, IOWA — Namasco announced that Dubuque will be the location for a \$6 million expansion and add 40 new jobs.

Namasco hired the site location firm, Cushman & Wakefield, to assess the feasibility of the project at several possible locations in the Midwest. The company selected their existing Dubuque County location to consolidate its Iowa operations. In a press release company officials stated, "With this expansion, Namasco will leverage its combined Iowa assets to meet the evolving requirements of its Midwestern account base."

The project is scheduled to be completed at the end of this year. The expansion decision is subject to approval of state and county incentives.
